Since its establishment in 2000, iMarketKorea is Korea’s best distribution company dealing with industrial materials, which has pursued win-win options for customers, based on strategic know-hows, top talents, advanced IT technologies.

About Us

iMarketKorea is a B2B purchasing service company that saves customers’ time and cost through specialized purchasing and efficient processes. Based on the MRO procurement service, we are expanding our business into all industrial sectors while entering into various specialized distribution businesses such as IT and construction materials and health care.

MRO Business

Procurement Service and consulting service to save customers time and cost.

Outline of MRO Business

iMarketKorea helps customers to change their purchasing structure in terms of systems, processes and services and ultimately, to achieve purchase innovation in order to strengthen their purchasing competitiveness.

Procurement Service Minimizing your time and cost

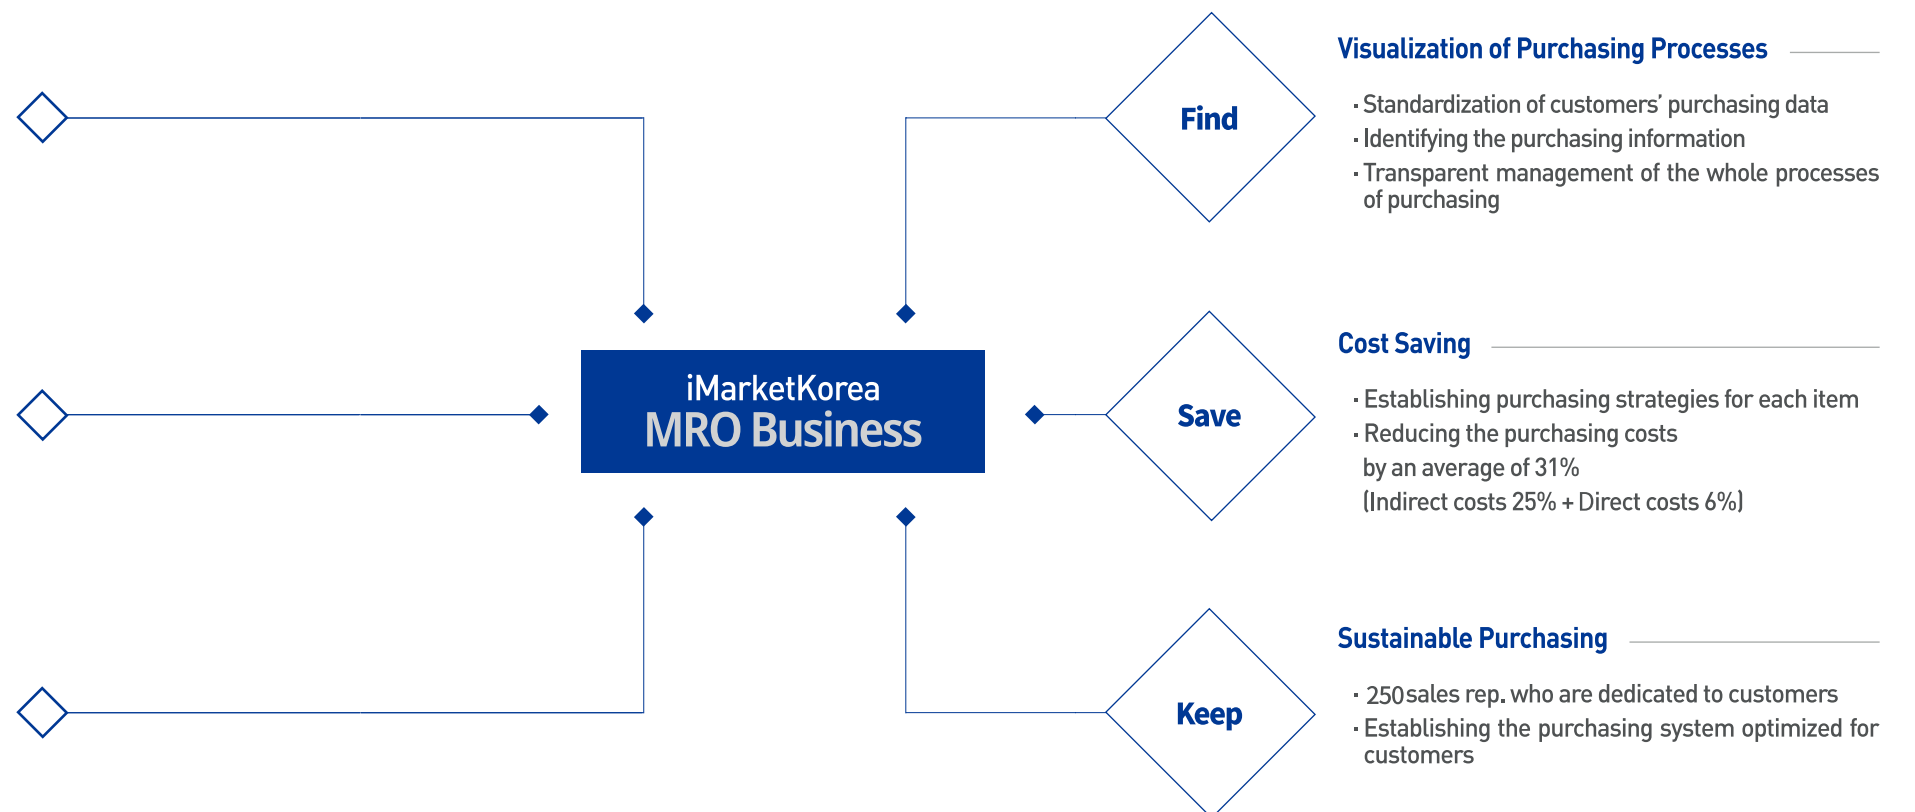

MRO is the purchasing service provided by iMarketKorea to purchase the items in a lump, which were individually purchased by customers from various channels. It is a solution that not only can reduce the purchase cost based on our purchasing power, but also saves the indirect cost of the purchasing staffs of customers through the one-stop purchase.

Purchasing Consulting Helping customers improve their purchasing processes

We identify customers' overall purchasing tasks and find their problems and issues. By doing so, we can offer and implement customized solutions tailored to customers' characteristics, culture, and circumstances, helping them to strengthen their purchasing competitiveness.

Strategic Purchasing System Providing the optimal purchasing system to customers

Procurement Service of iMarketKorea can save the cost of developing purchasing systems. iMarketKorea provides customized the purchasing system, ASP service to customers based on its own experiences of diagnosing many enterprises' processes and systems.

★★★★★

Purchasing Manager of Company A

"I am satisfied with IMK's quick response to urgent parts"

"Since the introduction of the iMarketKorea's purchasing service in 2014, we have been trading about 4,000 items. There are many urgent requests for automation equipment parts in the production line. I am very pleased to be able to get the parts quickly from iMarketKorea's nationwide supply chain."

★★★★★

Purchasing Manager of Company B

"I've been dealing with IMK for 20 years based on trust"

"Based on trust, we have been trading with iMarketKorea for nearly 20 years since its establishment. Recently, we have had annual contract for 3 years, saving an average of 2.2% on purchasing costs."

★★★★★

Purchasing Manager of Company C

"Improved work efficiency through purchasing agent service"

"From August 2018, we began to set up standardization and integration of items, and integration of suppliers, and introduced the MRO in November. The MRO allows us to focus more on other tasks by purchasing more than 80% of the trade items on behalf of us."

★★★★★

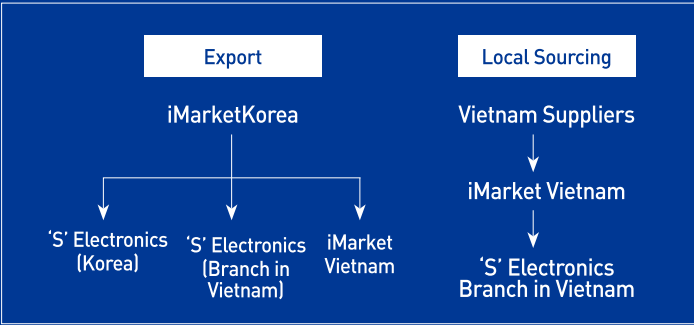

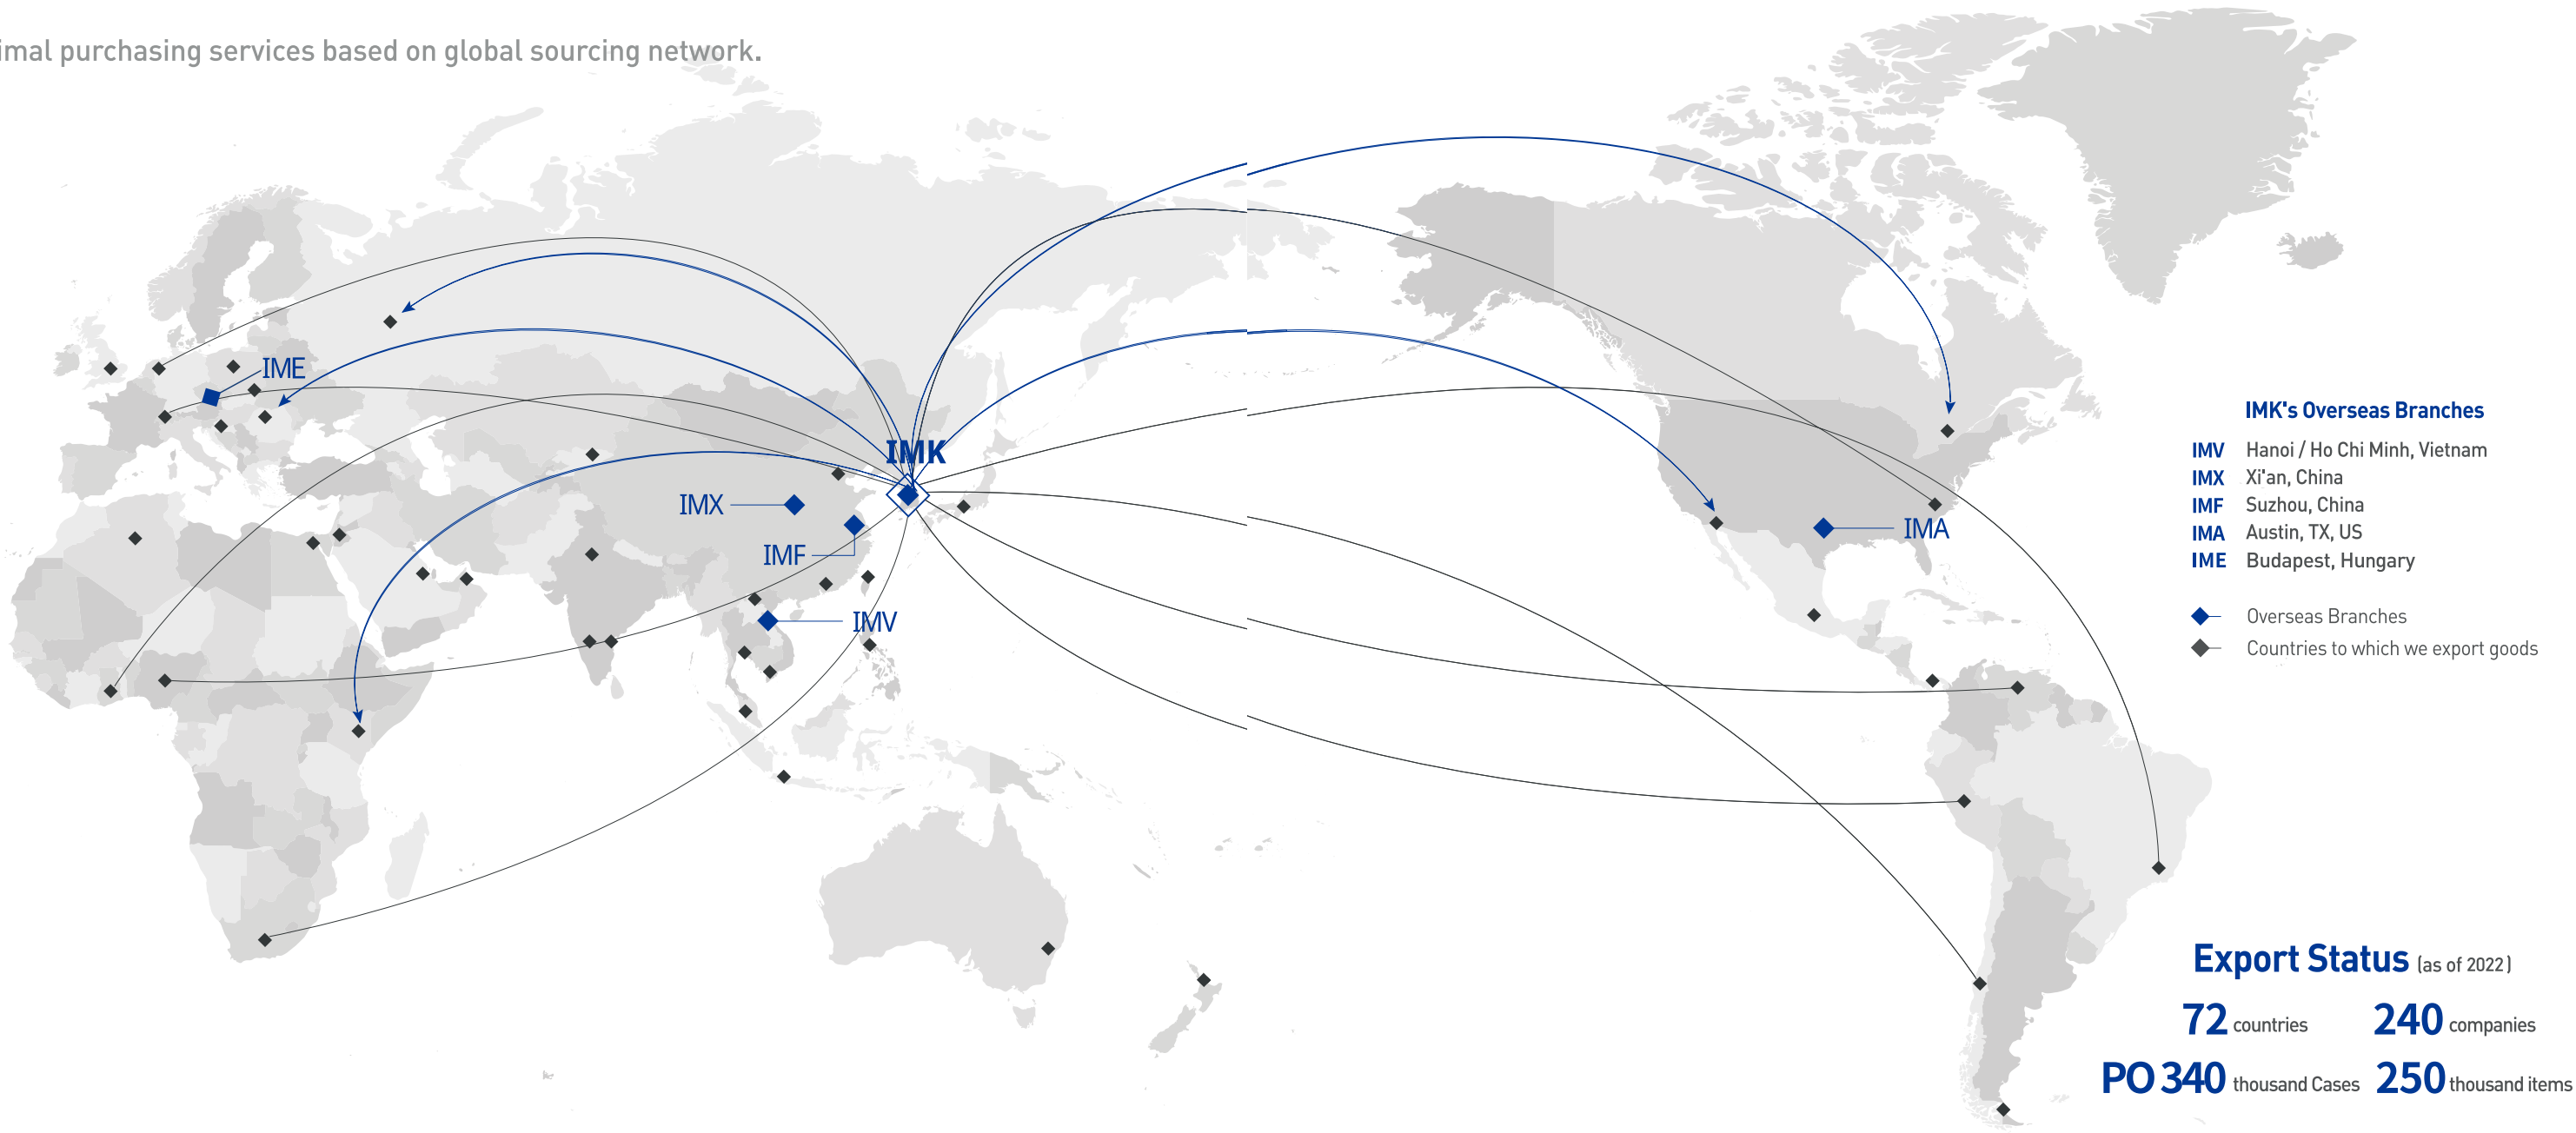

Purchasing Manager of Company D

"Reduced direct and indirect costs"

"In 2013, we started trading with about 6,000 items, we are trading about 27,000 items. The costs of materials and equipment to sales have been reduced by 4.8% thanks to iMarketKorea."

Global Business

Optimal purchasing services based on global sourcing network.

Export to Overseas Affiliated Companies —

- Export services via vessel/air
- Reduction of export logistics cost through integrated freight shipment
- Quality test and cargo check before shipment
- Providing validated item price and supply information in real time
- Finding overseas markets for Korea's promising small and medium-sized Businesses

Global Sourcing Network —

Reducing customers' purchasing cost and building stable supply chains by utilizing global sourcing networks such as Korea, China, Vietnam and USA, etc.

Local Sourcing For Overseas Corporations —

Local sourcing to streamline local purchasing of your overseas corporations together with supports for local sourcing and import and export. Based on our know-hows accumulated over the last 20 years, we have expanded our business to global companies by building our own SCM.

Distribution Business

Specializing in distribution of all items necessary for corporate management.

Industrial Materials

Distributing Overseas Advanced Brands in Korea

We are internally distributing high-quality advanced brands such as TRUSCO, the Japanese machine and tool distributor. We have also been continuously distributing special items such as WATER-JEL that is the burn first-aid drug in the USA, OILEX that is the oil adsorbent, DRONCO cutting disc in Germany, etc.

Supplying Customized Products

We provide customized products based on our long experience in trading and also develop the products based on customers' needs. In consideration of the opinion of 'S' electronics business that the slippers come off too easily, we have developed the sandal-type products for 6 months to reduce the risk of safety accidents.

Development of Private Brand(PB)

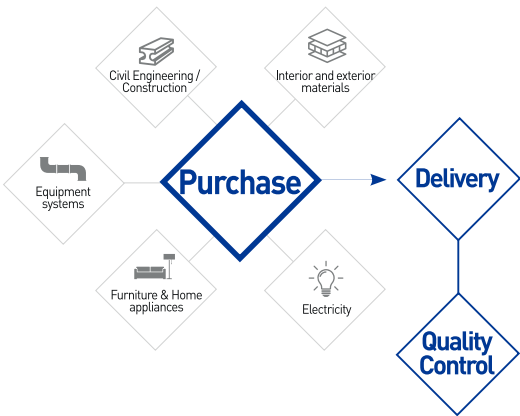

In order to enhance purchasing power and to provide more systematic quality control and competitive price, we are accelerating the development of PB for industrial products. We are expanding PB items by industrial sectors, including safety goods, tools, accommodation goods, cleaning products, automobile products, and fine dust masks.

Construction Materials

Purchase and Distribution of all Items Required by Construction Sites

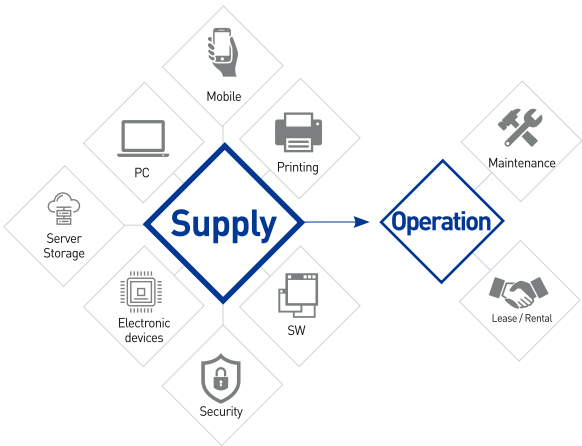

iMarketKorea, which purchases and distributes construction materials of about 450 billion won per year, supplies all the items needed for building and remodeling works, from steel products to interior and exterior materials, electrical materials, equipment systems and office furniture to domestic and overseas construction sites.

IT

Total Service for IT Products and Technologies

We provide integrated technical services such as consulting, installation, operation and maintenance, etc. as well as the latest IT products such as PC, mobile, printing, server, SW, and electronic devices, etc. Leasing and rental services for security solutions and special facilities are also provided.

★★★★★

Construction Materials Purchasing Manager of Company 'D'

"The system is efficient because we can get high quality goods at low cost. A detailed explanation and friendly response of the sales rep. facilitate smooth progress such as negotiating schedule, etc. They also provide advanced information useful for the business, such as market conditions."

★★★★★

IT Purchasing Manager of Company 'S'

"In the process of negotiating delivery, they first think about our needs, and offer them, and present unexpected problems and solutions. I am satisfied with the way they deal with the customers based on Customer First philosophy as a whole."

Health Care

Distribution of pharmaceuticals and medical supplies based on the superior purchasing capabilities.

Beyond simple and basic processes such as warehousing and shipping, storage, delivery, we are providing logistics services through rigorous quality control of KGSP (Korean Good Supplying Practice) to supply essential medicines for patients' safety.

Distribution of Pharmaceuticals

Our subsidiary, Allen Care, is a specialized wholesaler and retailer of pharmaceutical products that has established the systematic health care distribution systems. It performs procurement outsourcing for medicines and logistics services, supplying prescription-based medicines to customers such as Severance Hospital etc.

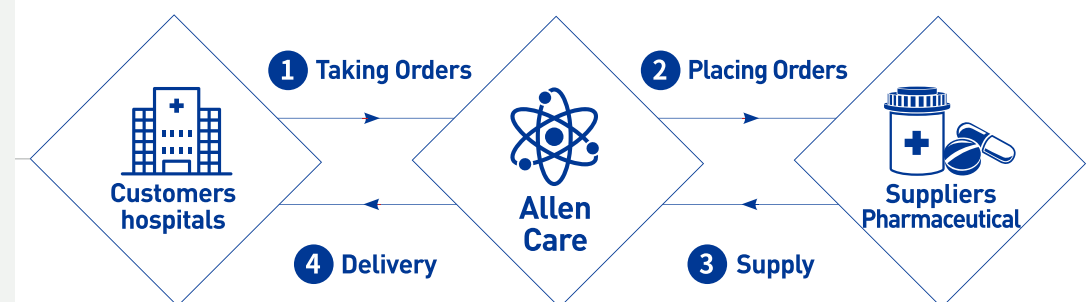

Online Distribution

iMARKET's medical mall which delivers medical supplies in a day is the online shopping mall conveniently used by small hospitals and clinics.
